Hi Carol,

I was mistaken to Subpart T, what I meant was “chromium Electroplating” Subpart N. If you have ever submitted initial notification and Notification of Compliance Status for Subpart N, please locate them and forward copies to me.

Thanks,
Abdi.

After review, based on the definition provided in the subpart description Central Metal Finishing Inc. is not required to report because we do not use the reportable chemicals:

(a) The provisions of this subpart apply to each individual batch vapor, in-line vapor, in-line cold, and batch cold solvent cleaning machine that uses any solvent containing methylene chloride (CAS No. 75-09-2), perchloroethylene (CAS No. 127-18-4), trichloroethylene (CAS No. 79-01-6), 1,1,1-trichloroethane (CAS No. 71-55-6), carbon tetrachloride (CAS No. 56-23-5) or chloroform (CAS No. 67-66-3)...

(b) Except as noted in appendix C (General Provisions Applicability to subpart T) of this subpart, the provisions of subpart A of this part (General Provisions) apply to owners or operators of any solvent cleaning machine meeting the applicability criteria of paragraph (a) of this section.

The solvent cleaning at Central Metal Finishing Inc. uses N Propylbromide (CAS 105-94-5)

Please let me know if further review is required.

After further review CMF could not find the original notification by CMF for 40 CFR Part 63 Subpart WWW.

Record of reporting were found from year 2010 and also noted as an existing location.

Currently CMF is reviewing the 40 CFR Part 63 Subpart T. I will have response for you next week.

Hi Carol,

During the inspection, you could not find Initial Notifications for both Subpart T and 6Ws. Also, you could not locate Notification of Compliance Status for Subpart T for the last several years.

Thanks,
Abdi.

The person Luis Cora that worked on this with me is no longer with CMF.

I need your assistance with what was left incomplete. Your email referenced a list however this was not with the email.

I had sent you our refrigeration information in July last year.

I will get back to promptly once I have your list of requests.
